

MANU HEGDE

Seattle, WA (425)215-6366 manuhegdus@gmail.com manuhg.com github.com/manuhg linkedin.com/in/manu-hegde

EDUCATION

Master of Science (MS) in Computer Science & Software Engineering
University of Washington | Bothell, WA

06/2025

Bachelor of Engineering (BE) in Computer Science & Engineering

Dr. Ambedkar Institute of Technology, Visvesvaraya Technological University | Bengaluru, India

06/2019

TECHNICAL SKILLS

Languages: Python, Kotlin, Java, C++, Rust, JavaScript, TypeScript; HTML, CSS, Shell Scripting (Bash, Zsh), SQL

Frameworks: ReactJS, React Native, Redux, Dropwizard, Springboot, JUnit5, Locust, Mockito, Django, Flask

Technologies: Kubernetes, Jenkins, Github Actions, Git, Docker, Linux, Apache Spark, Elasticsearch, Redis, EventHub, Kafka, Prometheus, Grafana, PostgreSQL, AWS Lambda, Microsoft SQL Server, Azure CosmosDB, MongoDB, Google Cloud Firebase

Paradigms: Test driven development, Object oriented design, Continuous Integration & Continuous Delivery (CI/CD)

WORK EXPERIENCE

Graduate Research Assistant, University of Washington, Bothell, WA

11/2023 - Present

- Set up CI/CD using Github Actions and lightweight kubernetes cluster(K3s), reducing deployment time upto 91.6%
- Set up monitoring with Prometheus & Grafana to enable real-time monitoring and alerts
- Optimized runtime performance of backend services in python django by 29% (saving 600ms+ per request)
- Re-architected APIs to leverage UI data store (Redux) more effectively, yielding performance improvement by 27%

Software Engineer Intern, Vaccine Genie, Seattle, WA

07/2024 - 08/2024

Vaccine Genie is a Seattle based startup focused on translating and digitizing immunization records for travellers

- Built and beta released OCR (Optical Character Recognition) and Translation capabilities in the Vaccine Genie mobile app
- Implemented and tested the Chinese to English OCR and translation workflow

Senior Software Engineer - L3, Tekion Corp India, Bengaluru, India

01/2023 - 07/2023

Tekion is a California based automotive software company funded by former Tesla CIO

- Co-led the development & launch of Phase-I pilot backend for an e-signing platform targeting 4 major car-dealership groups in the US, resulting in a standardized e-signing experience across Tekion's software products
- Designed & deployed new micro-services in Java for real-time screen-sharing & collaboration facility and a service to regulate the signing process. Also co-refactored 2 existing services, yielding 18% improvement in API response time.
- Recognized for swift execution, simplifying the processes, guiding the team and outpaced launching of features

Product Engineer, Udaan (Hiveloop Technology Pvt. Ltd.), Bengaluru, India,

07/2019 - 12/2022

Udaan is one of the top B2B e-commerce platforms of India serving millions of retailers, funded by Lightspeed ventures

- Initiated & led data platform project to enable self-serve near real-time data workflows for all stakeholders (tech & business); handles petabyte-scale data regularly
- Worked fullstack, building & scaling micro-services and infrastructure for front-end, middle-ware & back-end modules
- Iterated on product & features to achieve 100% company-wide voluntary adoption
- Improved scalability & fault-tolerance, reducing outages by 63% and total cost by 54%
- Developed query execution & orchestration engine, reducing platform total cost by 19% and sub-proportional cost growth
- Architected DAG (Directed Acyclic Graph) based execution to reliably enforce data dependency & integrity
- Increased resource efficiency by 2.5x by rearchitecting critical microservices & databases to efficiently leverage caching, pooling and event driven architecture
- Co-architected MLOps Platform (Feature Store, ML Model CI/CD) to enable additional use cases
- Overall Impact: improved execution efficiency for existing use cases by 2-22x and enabled hundreds of new use cases
- Received #crushing_it award for leading and building data platform, which received usage score of 8.1 from 2400+ users

PROJECTS

- **FarmTV** - Created a react native app for farmers of KA, India to watch scientific agricultural videos. Has 50,000+ downloads and 1000+ daily active users; <https://shramajeevi.com#farmTV> 03/2021 - 06/2021
- **Radiant Board** - Developed firmware (embedded C) and desktop application (C++ .Net) for an Information Display Board powered by ATmega1280 controller, used by 2000+ stores of BPCL across India 04/2017 - 08/2017
- **osh** - command line application to debug and fix errors using LLMs - winner of Hasgeek Deephack 2023 in developer tools category; getosh.com 03/2023 - 04/2023
- **fsort** (class project) - Built desktop application with QT C++ for content-based image segregation using Inception V3 CNN & T-SNE clustering, using Caffe2 C++; github.com/manuhg/fsort 03/2018 - 05/2018
- **manuOS** (hobby project) - Developed a basic X86 Kernel written in C and x86 assembly, that can handle basic interrupts; github.com/manuhg/manuOS 09/2011 - 01/2012
