🎓 Education

- 2015-08 2019-06 **Dr. Ambedkar Institute of Technology** Bengaluru, India
- B.E in Computer Science & Engineering
 - CGPA - 8.1, Languages: C, C++, java, Clojure, Python, PHP, Javascript

💼 Experience

- 2019-01 2019-05 **Deep Learning Intern** Bengaluru, India
- Tika Data
- Built tool to extract frames at a regular intervals, containing one or more objects specified.
 - Uses OpenCV, can interchangeably use any of Yolo, SSD, Faster R-CNN.
- 2018-06 2018-08 **Front End Developer (ReactJS)** Bengaluru, India
- Shramajeevi
- Built agdial.in, a serverless, responsive web app in ReactJS with Firebase backend.
 - Redesigned shramajeevi.com into a react web app.
- 2017-06 2017-08 **Software Engineering Intern** Bengaluru, India
- Radiant Data Systems
- Developed firmware for custom fabricated a device running ATmega1280 that displays inventory statistics, receiving information from a desktop via USB or Bluetooth connection
 - The firmware was written in C and the Desktop Application in Microsoft Visual C++.

🔗 Projects

- 2018-02 2018-04 **File sorting using unsupervised machine learning**
- Written in C++
- 📄 [fsort](#) - ui in QT5 C++ and 📄 [libfsort](#) - backend library with Caffe 1.0 C++.
 - Linux Desktop Application to segregate Image files based on its content and colour distribution using inception-v2 as feature extractor and T-SNE for clustering.
- 2012-01 2012-07 **X86 Kernel Development**
- Written in C and x86 Assembly
- 📄 [manuos](#) - My own 32 bit Operating System Kernel written from scratch with very basic abilities like virtual 8086 mode, pae paging and system calls.

💡 ML & AI Courses

- External Internship Program - Offline - Machine Learning & AI Foundation, Bengaluru
 - Trained CNN on MNIST dataset to reach 99.2 validation accuracy in less than 18k parameters.
 - Trained [DenseNet](#) model with less than 1M parameters to reach 92% validation accuracy in 160 epochs.
- Machine Learning by Andrew Ng on Coursera
- Stanford CS231n on Youtube, Deep Learning CS7015 by IIT Madras on nptel.ac.in

🔗 Other Skills & Interests

- 2D animation & Image manipulation in Adobe Photoshop
- Reverse engineering of binary executables using radare and gdb and experiments with Raspberry Pi.
- Volunteering Experiences: MakerFaire Bengaluru 2017, Hasgeek 50p '18, rootconf '18, Fifth Elephant '18
